

University and college care leaver and general enquiry contacts

Below is a list of support details for care leavers and care leaver team contacts for [UCAS coded UK colleges and universities](#).

We will be keeping this up to date regularly. in particular finding out more specific contact information for the colleges and universities that currently only provide general details.

On results day if you aren't able to get in contact with your LA/PA, the Children's Commissioner's [Help at Hand](#) team, help.team@childrenscommissioner.gov.uk, 0800 5280731, might be able to provide support and point you in the right direction. They could also write to the care leavers support team at your university on your behalf and to your leaving care workers and might be able to help relay circumstances to universities to get them to reconsider your place in the situation that you haven't quite got the grades they had asked for. They can also help if you haven't heard back about accommodation and funding.

You can find your university via searching or here are the links you can click on to jump to the different regions:
